

Report

From 19-23 July 2021, the Department of Mathematics organized a lecture series on numerical techniques in mathematics, aimed at helping participants excel in competitive examinations. The series kicked off with a session by Dr. Ravins Dohare on Linear Programming problems, complete with multiple examples relevant to competitive exams. On the following day, Dr. Padam Singh explained the theory of groups using useful notations. Dr. Lokesh Joshi took over on the third day, demonstrating various numerical techniques through different methods. On the fourth day, Dr. Bhagwan Singh discussed several questions related to CSIR NET and GATE examinations. The fifth day featured Dr. Rudraman, who explained several identities crucial to competitive exams. Finally, Dr. Suraj Pal Singh shared his knowledge of numerical techniques on the last day, while Principal Dr. Kamla Chanyal gave the vote of thanks.
